

Hernan Horacio Lopez

Senior Full Stack .NET Engineer | .NET · Angular

Summary

Senior Full Stack .NET Developer with 7+ years building scalable web applications. Proficient in .NET 6–10, Angular, Blazor, and EF Core, with strong SQL expertise and a solid grasp of Clean Architecture, CQRS, and SOLID principles. Experienced in CI/CD pipelines. Fluent in English (C2) and comfortable in distributed Agile teams.

Experience

BEON.Tech	Buenos Aires, Argentina (Remote)
Senior Software Engineer — .NET 10 Angular	Jun 2025 – Present
•Architecting solutions for a leading CRM platform serving world-class entertainment entities in the global arts industry. •Contributing to the modernization and scaling of a distributed architecture using .NET 10, Angular, and AWS cloud services. •Delivering high-quality software with a focus on performance, scalability, and maintainability. •Conducting technical interviews for Angular developer candidates, evaluating skills and cultural fit for the engineering team.	
ARSAS	Santa Fe, Argentina (Remote) - NISUS
Tech Lead & Senior Software Developer — .NET 10 Razor Angular 20	Nov 2024 – Nov 2025
•Leading development of an agronomy-focused CRM platform, managing crop field data, agronomist workflows, and reporting for agricultural clients. •Leading a small development team in building and maintaining the solution using .NET 8 and Angular 20+. •Designed the MS SQL Server database schema and configured EF Core with a code-first approach. •Implemented CI/CD pipelines using GitHub Actions, automating build, test, and deployment processes. •Responsible for configuring and managing production and testing environments on VPS infrastructure, ensuring uptime, security, and scalability. •Implemented RazorLight for automated email templating systems.	
PLURALIT	United Kingdom (Remote) - SalonIQ
Senior Software Developer — .NET 8 Blazor	Nov 2024 – Mar 2025
•Led the migration of a legacy .NET MVC 5 + VB.NET application to .NET 8 with Blazor components and C#. •Built reusable Blazor components, routing structures, and REST API integrations. •Applied CQRS and Clean Architecture to restructure business logic and improve long-term maintainability. •Optimized heavy SQL queries using indexing and partitioning strategies, significantly reducing execution time. •Supported Azure deployment and infrastructure optimization, reducing cloud costs while improving system performance.	
SYMFA INC.	Poland (Remote) - AmTrust Financial
Senior Software Engineer — .NET Framework .NET 8 Razor Blazor	Apr 2023 – Jun 2025
•Maintained and enhanced an enterprise-level insurance quoting system using ASP.NET MVC with Razor views and JavaScript. •Led multiple migrations from Razor Pages to Blazor components, improving responsiveness and user experience. •Refactored layout files and separated code-behind logic into .razor.cs files for better separation of concerns. •Implemented Razor templates (.cshtml) for automated email notification systems. •Designed and optimized SQL Server queries focusing on joins, composite indexes, and execution plans.	
KINETIC Software	Cordoba, Argentina (Remote)
Semi-Senior to Senior Full Stack Developer	Jul 2022 – Oct 2023
•Analysis, maintenance, and development of .NET 6 and Angular 10+ solutions for government and private clients. •Improved SQL performance through better handling of indexes, keys, and transactions for high-demand systems. •Applied SCRUM principles with a focus on long-term maintainability using Clean Architecture and SOLID principles.	
MUSIMUNDO / ON CITY	Santa Fe, Argentina
Junior to Semi-Senior Full Stack Developer & Tech Lead (Zendesk)	Mar 2019 – Jul 2022
•Developed C# .NET and Angular 8-13 solutions for Customer Experience Management and Business Development. •Led the Zendesk Suite implementation project as Technical Lead. •Built multiple client-facing portals: FAQ & Self-Attendance Microsite, Home Delivery Tracking Portal, and Invoice Download Portal. •Developed integration services for Chatbots (WhatsApp, Messenger, WebChat) and email systems. •Designed internal CRM systems and REST APIs, including white-label web applications. •Applied Domain-Oriented Design and SCRUM methodologies within a collaborative team environment.	

Skills

Frontend

Angular 16+, Blazor Server, Razor Pages, TypeScript

Architecture & Patterns

SOLID, CQRS, Clean Architecture, TDD, Domain-Oriented Design, REST APIs

Cloud & Infrastructure

Azure, AWS, Docker, IIS, VPS Hosting

Security

ASP.NET Identity, JWT, Cookie Authentication, OAuth

Backend

C#, .NET 6–10, ASP.NET Core, Web APIs, EF Core, Dapper, LINQ

Databases

SQL Server, Oracle, Query Optimization, Index Tuning, Schema Design

DevOps & CI/CD

GitHub Actions, GitLab CI, BitBucket Pipelines, GitFlow

Tools

SignalR, Swagger, Application Insights, Confluence, OpenTelemetry

Education

UTN Facultad Regional Santa Fe

Information Systems Engineering

Partial
2013 – 2018

Escuela de Educación Técnica N°1

Electromechanical Technician

Degree
2006 – 2012

Certifications

EF SET Certified C2 Proficiency

EF SET
English — CEFR C2 level

Mar 2024

Pearson Test of English – Level 2 (CEFR B1)
